SAFETY STANDARDS

NAIL POLISH PRODUCTS

All nail polish offerings are 3-free (no toluene, dibutyl phthalate, formaldehyde).

Some of the brands available are also 5-free (free of formaldehyde resin and camphor in addition to 3-free ingredients).

OILS AND LOTIONS

Our philosophy is to always source the simplest formulations with organic ingredients and organic essential oils. All products must be free of parabens, unnecessary dyes, and synthetic fragrances. Our current selection of lotion is certified organic and 100% vegan.

SANITIZATION PRACTICES

In addition to the Board of Cosmetology requirements, we use autoclave pressure chambers and follow the same procedures used by dental offices in sanitizing and sterilizing every cutting instrument.
